Education

Bachelor of Engineering Systems and Computing (Co-op)

Jan 2022 - April 2028

University of Guelph, Guelph, ON

- First Aid Certified, SolidWorks Certified, and Welding Certified 2026
-

Experience

Environmental Research Assistant

Sept 2026 - Present

University of Guelph, Guelph, ON

- Real-time data collection & analysis of Waterborne Pathogens and water quality across multiple types of water systems
- Sensor fabrication, assembly, on-site installation, and sensor system maintenance

Robotics Mechanical Design Engineer

Oct 2019 - Present

FIRST Robotics Team, Guelph & Milton, ON

- Completed engineering competitions to design & construct large, intricate robots that met all design requirements and rules in a short time frame
- Soldering, welding, wiring, design, critical analysis, and prototype/3D printing skills
- Design & CAD experience in Blender, SolidWorks, AutoCAD, and their extensions
- Machining experience with lathes, drill presses, hand tools, CNC, and axis machines
- Experience in coding Java, Python, C, C++, C#, Linux, HTML, and MATLAB.
- Experience in Docker, logging, and embedded systems

IT Support & Project Lead Co-op

April 2024 - Sept 2024

Trophy Foods Inc., Mississauga, ON

- Completed many IT help tickets with documentation/communication
- Developed new company automated processes/software and presentations
- Lead developer in creating a functioning SharePoint Online website and Apps

Automation Operator and Technician

April 2022 - Sept 2022

SureCure Aligners, Milton, ON

- Worked in a fast-paced environment with a team producing over 500 products/day
- Fixed, maintained, and ran automated and manual machines
- Multitasking at fixing assigned stations and helping/instructing at other stations
- Quality Assurance skills with extreme precision and attention to detail

Lean Manufacturing System Process Co-op

Jan 2026 - April 2026

Valcom, Guelph, ON

- 5S, organizational system skills, onboarding/integration, and CMMS training
- Improved efficiency, maintenance, and manufacturing processes
- Effective understanding of antenna concepts, designs, and creation of manuals
